Introduction

A Sample of Recent News on Sex Trafficking

Sex-trafficking defendant awaits sentencing

CONNECTICUT POST

MICHAEL P. MAYKO

05/14/2008 12:12:43 AM EDT

BRIDGEPORT — He gave them names like "Sin," "T" and "Barbie."

He made them work in strip bars like Pleasant Moments on Williams Street and Bishop's Corner Cafe on Barnum Avenue. And when they got out of line he threatened them, degraded them, beat them and, in one case, slashed a girl from neck to shoulders sending her to the hospital.

These are just some of the reasons why Corey Davis, who has pleaded guilty to sex-trafficking charges, deserves at least 293 months in prison, Assistant U.S. Attorney Krishna Patel wrote in a sentencing memo to U.S. District Judge Janet C. Hall.

Definitions of Trafficking

- Array of definitions:
 - The U.N. Protocol
 - The U.S. Trafficking in Persons Report
 - State Statutes

The U.N. Protocol

- **First International Definition [2000]**

UN Protocol To Prevent, Suppress and Punish Trafficking in Persons, Especially Women and Children

“Trafficking in persons shall mean

- **the recruitment, transportation, transfer, harboring or receipt of persons, by means of the threat or use of force or other forms of coercion, of abduction,**
- **of fraud, of deception, of the abuse of power or of a position of vulnerability or of the giving or receiving of payments or benefits to achieve the consent of a person having control over another person, for the purpose of exploitation.**
- **Exploitation shall include, at a minimum, the exploitation of the prostitution of others or other forms of sexual exploitation forced labor or services, slavery or practices similar to slavery, servitude or the removal of organs.”**

The U.S. Trafficking Victims Protection Act [2000]

The Trafficking Victims Protection Act defines "severe form of trafficking in persons" as

- (a) **sex trafficking** in which a **commercial sex act** is induced by force, fraud, or **coercion**, or in which the person induced to perform such an act has not attained 18 years of age; or
- (b) the recruitment, harboring, transportation, provision, or obtaining of a person for labor or services, through the use of force, fraud, or coercion for the purpose of subjection to involuntary servitude, peonage, debt bondage, or slavery.

State Statutes: Connecticut

- For the purposes of this state law, trafficking means “all acts involved in the recruitment, abduction, transport, harboring, transfer, sale or receipt of persons, within national or across international borders, through force, coercion, fraud or deception, to place persons in situations of slavery or slavery-like conditions, forced labor or services, such as forced prostitution or sexual services, domestic servitude, bonded sweatshop labor or other debt bondage.” (Section 1 (a)).

“Confused” Conflations and Contestations in Definitions

- Trafficking and Smuggling
- Trafficking and Prostitution
- Trafficking and Slavery
- Debates on the definitions, methodologies and the politics of the movement.

Types of Trafficking

- Labor trafficking
- Sex trafficking
- Child trafficking
- Other categories that sometimes get discussed under the definition of trafficking include:
 - Mail order brides
 - Debt bondage
 - Camel jockeys

Data/Data Discrepancies/Data Disputes

- Each year 600,000 to 800,000 victims are trafficked across international borders, half of whom are children.
- This 9.5-billion-dollar a year industry is hardly limited to the developing world, with 14,500 to 17,500 victims trafficked into the United States every year, according to the U.S. State Department.*
- Comprehending the numbers
- Disputes
- Examples of the disputes

* Based on data published since 2001

Data Discrepancies: II

Data Comparison Sheet #1 (v. 2) Worldwide Trafficking Estimates by Organizations

Data cited or attributed to various organizations regarding the annual flow of trafficked people worldwide.

Number of People
Trafficked Per Year

Data Discrepancies: III

“Existing estimates of the scale of trafficking at the global level are questionable, and improvements in data collection have not yet been implemented.

The accuracy of the estimates is in doubt because of methodological weaknesses, gaps in data and numerical discrepancies.”

Source: GAO Report on Human Trafficking Data, July 2006.

Reasons for Data Discrepancies

Table 3: Reasons that Limit the Quality of Trafficking Data

Availability	Reliability	Comparability
<ol style="list-style-type: none">1. Trafficking is an illegal activity and victims are afraid to seek help from the relevant authorities.2. Few countries collect data on actual victims on a systematic basis.3. Data collection is focused on women and children trafficked for sexual exploitation, and other forms of trafficking are likely to be underreported.	<ol style="list-style-type: none">1. Capacity for data collection and analysis in countries of origin is often inadequate.2. Trafficking convictions in countries of destination are based on victim testimony.3. Estimates of trafficking are extrapolated from samples of reported victims, which may not be random and thus representative of all trafficking victims.	<ol style="list-style-type: none">1. Countries and organizations define trafficking differently.2. Official statistics do not make clear distinctions among trafficking, smuggling, and illegal migration.3. Data are often program specific and focus on characteristics of victims pertinent to specific agencies.

Systemic Causes

- Globalization
- Circles of Connections and Networks of Links
 - Economic Dimensions
 - “The underbelly of globalism”
 - Transnational Networks
 - Urbanization
 - “Space time compression”
 - Industry Profits

Migration

- Migration
 - Push factors
 - Pull factors
- Debates about the push and pull factors
- “Feminization” of migration
- Social Networks
- Skepticism regarding immigration policies

Patriarchal Systems

- “Women, the last colony” [Maria Mies]
- Different systems of morals for men and women
- “Selling of girls” by parents
- Linkages between migration and patriarchal systems

Commodification of Labor and Sex

- Late capitalism
- Globalization
- Care work
- Liberalization of the “Sex Industry”
- Commercial Sex

Approaches to Human Trafficking: The Prosecution Approach

The Enforcement/Prosecution/Protection Approach:

- Merits
- Limitations

The Human Rights Approach

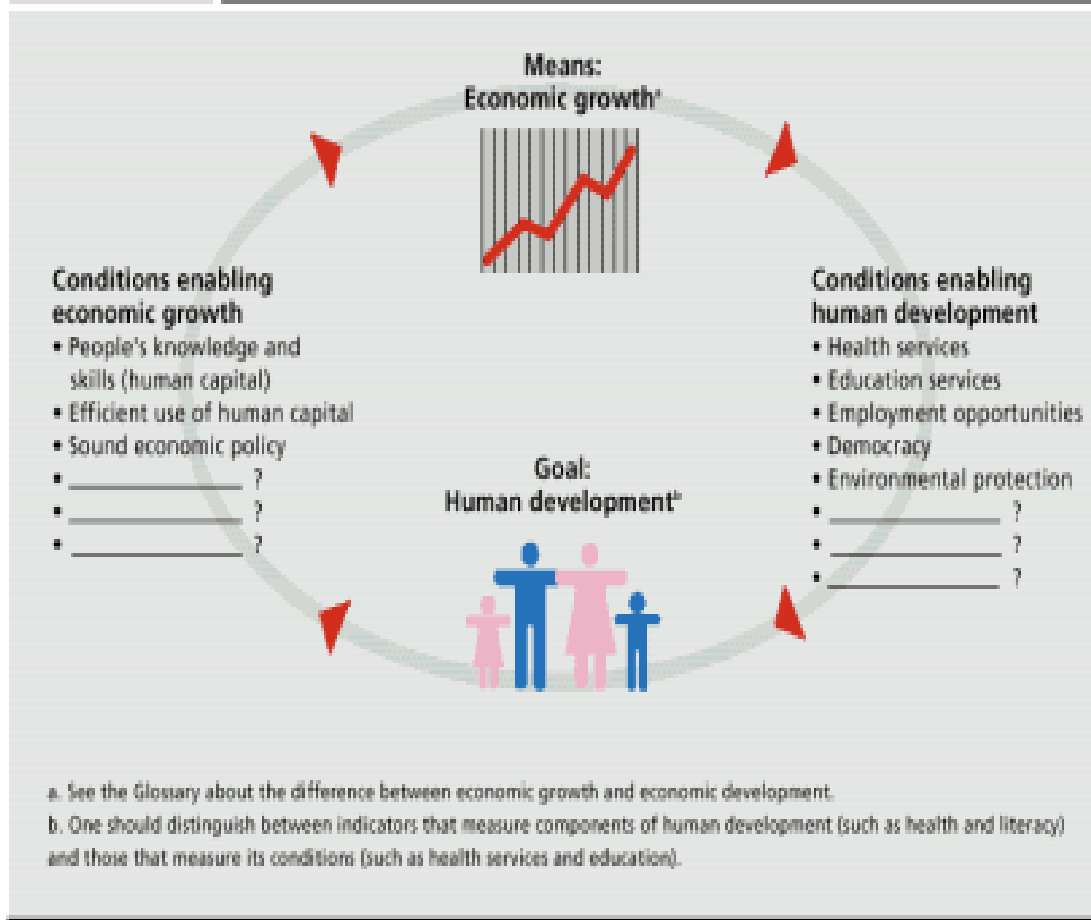

- In this year of the 60th anniversary of the Universal Declaration of Human Rights (UDHR), we are still struggling to look at the issue of trafficking within the context of the human rights of the “victims” of trafficking;
- ***Article 1. among 30 articles***
“All human beings are born free and equal in dignity and rights. They are endowed with reason and conscience and should act towards one another in a spirit of brotherhood.”
- Has there been a regression in light of our topic?

The Human Development Approach

A Moment for Reflection

EUGENE, OR. 97405

Hey KRISTOF;

Why SHOULD the U.S. 'care' for
The rest of The world? THE U.S. SHOULD
TAKE CARE OF ITS OWN.

People have BEEN IN AFRICA FOR
Thousands of Years - & LOOK AT THEIR
PROGRESS during Those years. TRIBAL still!

Its way past time for LIBERAL
twits to stop pushing The U.S. into
NONSENSE OR try to make every wrong in
The world OUR responsibility.

- Are the MDGs an obligation, responsibility, investment?

The Human Security Approach

Human Security

“People's security around the world is interlinked - as today's global flows of goods, services, finance, people and images highlight. Political liberalization and democratization opens new opportunities but also new fault lines, such as political and economic instabilities and conflicts within states.”

Report on the Commission for Human Security, 2003

The Human Security Approach: II

Source: www.ubuntu.ie/themes/theme_development.php

Multiple Perspectives

- Creation of awareness of multiple ways of looking at the issues involved
- Victim or agent? Consent or Coercion?
- The “rescue industry”
- Is it a form of “border control” at a time when capital is mobile but labor may not be mobile?
- Neo-colonialism?
- Understanding the ideological foundations of globalization

Conclusion

- Our role as
 - Health professionals
 - Activists
 - Educators
 - Scholars
- Public awareness
- Questioning the statistics
- Understanding the context of the systemic causes
- Seeking a balance between the approaches for combating human trafficking.
